

Leaders in Practical Spintronics

An abstract, futuristic illustration of a circuit board. The board is populated with numerous small, dark, rectangular components. A complex network of glowing lines in various colors (yellow, green, blue, red) weaves across the board, representing data or energy flow. In the upper right corner, a bright light source emits several sharp, white rays that fan out across the scene. The lower left area features concentric, glowing circles in shades of blue and purple, suggesting a signal or a specific type of component. The overall aesthetic is high-tech and innovative.

NVE Overview

- 42 employees
- >50 issued U.S. patents
- >100 patents issued, pending, or licensed
- Unique spintronics factory; expanded in 2026

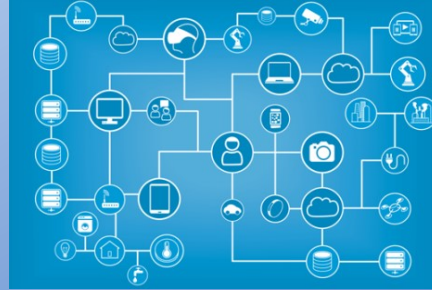

NVE Devices Are In Familiar Products

Four Key Markets

Medical Devices

Internet of Things / Artificial Intelligence of Things

Expansion Strategy

- ➡ \$3.4 million cap-ex over past two years
- ➡ Power efficiency with spintronics
- ➡ Miniaturization with chip-scale packaging
- ➡ Avoid contract packaging risks, tariffs, delays and costs

Best-in-Class Financial Metrics (YE 3/31/26)

 Gross Profit Margin: **79%**

 Operating Margin: **60%**

 Pretax Margin: **68%**

 Net Margin: **58%**

NVEC's Operating Margin % is ranked **better than**
99.61% of **1017** companies
